FLIGHT BY NOTHING ANNOUNCES LEAD SINGLE "SOUL SUBMISSION" OFF UPCOMING ALBUM LOVE TRIP

The indie-rock band continues to evolve its sound with the release of their emotionally charged lead single.

Austin, TX, October 4, 2024: Indie-rock band Flight by Nothing is excited to announce the release of their new single, "Soul Submission," available today on all major streaming platforms. As the lead single off their highly anticipated upcoming album ***Love Trip***, "Soul Submission" offers a raw and reflective take on love, heartbreak, and the complexities of intimacy.

"Soul Submission" is described by the band as a "love-anti-love song." It explores the resistance to love after being burned in the past, reflecting a push and pull between wanting to be left alone and being unable to resist the feelings of love and intimacy. "It's a message to the girls in my past and the girl in my future of how I am," shares Conner Redden, the band's vocalist.

Flight by Nothing recently completed a tour across Texas alongside Flamingos in the Tree and Inoha, nearly selling out shows at notable venues such as 3TEN ACL Live in Austin and Club Dada in Dallas. The band's previous album, ***Back for More***, has garnered significant attention, with ***over 394k streams*** and live performances that have captivated audiences. ***The Austin Chronicle*** praised the album, calling it "a tightly packaged, energetic project that makes the most of every second," with a blend of "shimmering indie-pop, atmospheric art rock, and post-punk."

"The success of ***Back for More*** marked a pivotal moment for them," says Thomas Brown, the band's manager. "With 'Soul Submission,' we're pushing further into new emotional and sonic territories, and we can't wait for fans to hear what we've been working on."

Flight by Nothing's dynamic presence on stage has been a testament to their growing popularity. From headlining venues like Empire Control Room and Paper Tiger to sharing stages with larger acts like Tyga at events like River Fest in San Marcos, the band has proven they are just getting started.
